

Regarding "Life Saver" in Village Park
Feb 3 - 2021 From Curran Wade
Former Mayor of
Covington 1982-87

the late Mr Ed Case (Case and Lecken Law) got
a call from the company that makes
life savers. They told him they had
3 life savers (grant) and wondered since
E.S. Noble (originator of said product)
and that he was connected to Covington,
would we like to have one. So I had
Scott Hudson our Administrator write
letters to find out who, what when,
how etc. He did and we started
I called Clift Tibbitts head of of
Covington Iron Works do see if he
could provide a "Rock". He said
yes and they did. (he was in the
Rotary Club -) So we had Ron
Cochran Covington Village DPW Head,
go down and get it, Covington
Iron Works built tower and it was
erected. The water tower since came
up and did stop along (of course)
the Tribune Press. Some people tried to
get moved to hospital, but, thank
Cochran, that never happen. We have
over the past years had great attention
to the "Life Saver" and hopefully it

We remain. People (visitors) taking
pictures in front. I gave the Rotary Club
Supplied plaques But that all they had to
do with it.

If you need me on this - I
would be happy to help.

I'm very proud of this, as a
former Mayor AS A very positive occurrence
that happened during my 5 years AS
Mayor

Curtis Wade
